VOL. 4 NO. 42

FLORALA, COWARTON COUNTY, ALABAMA THURSDAY, SEPT. 11, 1924

FOUR PAGES

## Local Option

Those who are opposing the constitutional amendment are having a lot in their minds. They say that Governor Claiborne and the legislature were elected on a local option platform and that they have deserted from it, and they would have the people before them guilty of a radical and treacherous change of principle.

Let us see if this is true. "Option" means the right of choice. The word "local" refers to a particular place or territory. In the local option, it refers to a particular territory. The local option is not a general application of the referendum.

A democracy is a government of the people by the people. To a pure democracy the referendum is the method by which all laws are adopted. Every law must be submitted to the people and approved by receiving a majority vote before it becomes a law and there is no appeal of a majority. That method may be practicable in a small republic like Switzerland, but it is not practicable in this country where population changes so rapidly. We submit the referendum only in the most important matters. It is the method by which we amend our state constitution and by which we amend our state constitution.

There are many places in this state where a referendum is needed. There are many places where a referendum is needed. There are many places where a referendum is needed. There are many places where a referendum is needed.

There are many places in this state where a referendum is needed. There are many places where a referendum is needed. There are many places where a referendum is needed. There are many places where a referendum is needed.

There are many places in this state where a referendum is needed. There are many places where a referendum is needed. There are many places where a referendum is needed. There are many places where a referendum is needed.

When the referendum is held, the people are asked to vote on a question. This is a local option. The referendum is a method by which the people can amend their state constitution. It is a method by which the people can amend their state constitution.

The referendum is a method by which the people can amend their state constitution. It is a method by which the people can amend their state constitution. It is a method by which the people can amend their state constitution.

The referendum is a method by which the people can amend their state constitution. It is a method by which the people can amend their state constitution. It is a method by which the people can amend their state constitution.
