

These digital Images were taken by myself in June of 2006 on a research trip to Guntersville, AL with a friend. We located some records in this very volume that assisted her in determining residency of her ancestors. I thought this unusual little volume would likely be of assistance to other Marshall county researchers so I made images of the first few years to be placed on my website, TYR.

NOTE: The first 6 images are full page shots of the records. The images following those are closer shots to display more detail. Use the first 6 images to determine the correct page numbers on the originals.
